Aolong Xu

Multisensory integration and immersive virtual reality

Ghent, Belgium | aolong.xu@ugent.be | ORCID: 0009-0008-8104-8802

Education

PhD in Experimental Psychology 2023 - Present
Ghent University

Supervisor: Prof. Durk Talsma

Research examines the flexibility and plasticity of peripersonal space around the hands and feet using virtual reality.

Expected completion: September 2027.

MSc in Psychological Research 2018 - 2019
University of Edinburgh

Supervisor: Dr. Elena Gherri

Dissertation: Peripersonal space around the upper and the lower limbs.

BSc in Psychology & BA in English (International Finance) 2012 - 2016
Jiangxi Normal University

Publications

Published and in press

Xu, A., De Bruyne, J., Gherri, E., Marichal, T., & Talsma, D. (in press). Toward a comprehensive view of peripersonal space: From upper-limb foundations to lower-limb frontiers. Psychonomic Bulletin & Review.

Gherri, E., Xu, A., Ambron, E., & Sedda, A. (2022). Peripersonal space around the upper and the lower limbs. Experimental Brain Research, 240(7-8), 2039-2050. DOI: 10.1007/s00221-022-06387-7.

In revision

Xu, A., Gherri, E., De Bruyne, J., & Talsma, D. Effector-specific organisation of peripersonal space for the foot and hand: A virtual reality experiment.

In preparation

Xu, A., De Bruyne, J., & Talsma, D. Peripersonal space, interpersonal space, and reachability: Are they different, or is it just a matter of scale?

Xu, A., et al. Tool-use-related plasticity of peripersonal space around the hand in immersive virtual reality.

Foot motor preparation: An ERP-based investigation. Author order to be determined.

Aolong Xu

Academic CV / Experience and skills

Professional experience

Senior Data Analyst (Data Products) Dec 2021 - Oct 2023
Trip.com Group, China

Designed and maintained data dashboards to monitor consumers' behavior and products' performance.

Conducted data analysis to generate actionable insights for product and business teams.

Sales Strategy Sep-Dec 2021
Meituan, China

Operations Business Partner (Data Analysis) Aug 2020-Sep 2021
Shanghai Lianjia (KE Holdings / Beike), China

Teaching experience

Part-time Lecturer Feb-Jun 2021
Shanghai Normal University Tianhua College, China

Course: Research Methods in Psychology

Methods and technical skills

Methods: immersive VR, behavioral experiments, EEG/ERP.

Programming and tools: Python, R, SQL, Unity (C#), MATLAB.

Languages: English, Chinese, Gan Chinese.

Awards and funding

PhD Scholarship - China Scholarship Council (CSC)

Funding period: September 2023-2027.

Outside research

Outside research, Aolong enjoys building LEGO, fishing, playing the violin, photography, and video games.

I also share my home with two Oriental Shorthair cats.
